Cat Lavoie : Peri in Progress before purchasing it in order to gauge whether or not it would be worth my time, and all praised Peri in Progress:

By Chick Lit Goddess I started "Peri in Progress" in late 2015, and while this book is a quick-moving one, the times in my busy schedule I found time to pick it up—even for just a chapter or two—it was very enjoyable! Thankfully, I finished it, making it my first completed read this year. ("Peri in Progress" will definitely be on my favorite reads of 2016!). Right away, I fell in love with Peri! She knows she's got issues—her childhood is falling apart, she's a little overweight, and her relationship isn't what she'd like it to be—but I admired her for wanting to change the negative things in her life. Having a her friend by her side to help make these changes—one who was only there to help, not sabotage—was a major plus, and I loved how they interacted. As for her job, being asked to take some time off my well-paying job to work at a restaurant that is struggling, I wouldn't do it, being tempted to stay home in bed the entire time, but Peri accepted the challenge. It was rewarding to see how Peri overcame learning something that was not ordinary to her—including being around a handsome man like Milo, who introduces her to running. Near the end, I was holding my breath (sorry, no spoilers), but I was cheering for Peri all the way, and loved how it ended. As one who's read all of Cat's books, her writing gets better and better, making me more of a fan of hers, each book she releases. If you're wanting a quick, fun, delightful read, I recommend this brilliantly-written page-turner! I give "Peri in Progress" 5 stars!

By Meredith Schorr Author Cat Lavoie has done it again and when I say "it" I mean she wrote a heartfelt, humorous, and difficult to put down chick lit novel. Like Roxy and Zoey before her, main character Peri is a protagonist ripe for character development and develop she does - from her taste in food (and men), finding her passion in career (and men), and learning to stand up for herself. The road was not without bumps, but I love a book packed with conflict. Another thing in common with all of the author's books is a moment when the main character humiliates herself to the point where, as the reader, my stomach aches in sympathy and my heart pounds wondering how she will pick herself up again. her characters feel real - like girls I would be friends with - and as my friends, I root for them to find their happily ever after. I truly loved this book and the author is on my "auto-read" list.

I have read all her books and I can definitively tell you that each one was an absolute pleasure to read. In Ms. Lavoie's latest novel, we meet Peri on what should be a happy occasion -- her birthday. However, the night takes her to the darkest of places since her life is nowhere near where she would like it to be. In the cold light of day, she takes a look at her crumbling house, uncertain career, addiction to junk food and penchant for choosing the

wrong men and decides to make some much-needed changes. Her journey of self-improvement takes her to some truly hilarious, heart-warming and downright steamy places, which Ms. Lavoie handles with great skill. I was so enthralled with Peri's adventures that I read this book in one day -- I literally couldn't put it down.

You know what they say about best-laid plans.... After a disastrous 31st birthday party where she gets stood up by a man she isn't supposed to be dating, Peri McKenna decides it's time to change what hasn't been working - which is pretty much everything. Her love life is going nowhere fast, she's bored to tears by a job that makes her the office pariah, and the lifelong junk food addiction that used to be somewhat quirky is now positively problematic. To top it all off, her newly purchased home is falling apart, and wishful thinking hasn't done much to fix the leaky roof. It's time to be an adult now that she's officially 30-something. But when the first step of Peri's self-improvement plan backfires, she starts to wonder if change might be overrated. Enter Milo Preston, an up-and-coming chef who's in town to take over a local restaurant. When Peri and Milo begin working together, she finds it hard to ignore his easy charm and captivating emerald-green eyes. Since Milo is her best friend's estranged brother, Peri has to keep reminding herself that he is completely off-limits. As they grow closer, Milo introduces Peri to new foods and the joy (and pain) of jogging and makes her think her luck might finally be turning. But when the past catches up with them, Peri finds herself back at square one. Will she be able to sort herself out, or will the roof cave in on her once and for all?
